OFFICE MEMORANDUM

To : Files May 8, 1953.

From : H. Jones

Subject: Electronics Counter Measures Unit

At a conference on May 7, Vice Foreign Minister HU informed me that the Foreign Office was satisfied if General CHOU Chih-jou, Chief of Staff of the Military Forces, concurred but that he had said he had no knowledge of the matter.

I said I would get in touch with General CHASE who had assured me that he had obtained Chou's concurrence. I assumed that there had been some misunderstanding. Hu promised to contact Chou again and to advise us further. He said there obviously had been some confusion in this matter and that General Chou had assumed there was only one U.S. project -- the monitoring unit for the Air Force involving about 800 officers.

I replied that there were two separate projects and explained the electronics project to him in somewhat greater detail.
